

CONSTITUTION PARTY

Meet the Constitution Party

The 3 Pillars: Our Guiding Principles

The Constitution Party is anchored with 3 solid standards

Integrity – We are committed to restore integrity, honesty, and accountability to government and to uphold non-corrupt and morally sound politicians.

Liberty – We as Americans are free to act for ourselves with limited government interference.

Prosperity – We want to create the greatest economy for the United States that the world has ever seen. We will do so by restoring true free market principles to our economic policies.
